Join Us in Contributing to a More Sustainable City

Urban Green Council is an essential resource for the region's professionals working in all aspects of sustainable building. We provide valuable education and networking opportunities, and advocate for a thoughtful, sustainable approach to urban planning, development, and energy policy.

We are also a completely separate nonprofit from our national organization, the U.S. Green Building Council in Washington DC, and are responsible for our own fundraising.

EDUCATION

Green Building & PlaNYC 2.0

On July 14, we are hosting a special presentation of **PlaNYC 2.0**—the first major revision of one of the most ambitious blueprints for urban growth produced by an American city. In this landmark update, a **quarter of the initiatives address green building**, and covers everything from reducing construction waste to establishing a standard sidewalk specification.

Join us as we **hear exclusively from Laurie Kerr**, Senior Policy Advisor at the Mayor's Office of Long-Term Planning and Sustainability, on these important initiatives. Event details are [here](#).
